Dear Melissa Endres,

Second Hand Heroes is a nonprofit organization located in Jefferson County. Our mission is to offer families and individuals the necessities and resources to live a high-quality lifestyle.

The Jefferson Foundation grant opportunity would provide us with enough funds to create a community garden, Hero's Harvest, and significantly impact the food insecurity that plagues our community.

This project aligns with the Jefferson Foundation's effort to "promote individual and community health and well-being" by creating a space to enrich lives and promote healthy eating. Hero's Harvest will also seek to educate the public on creating gardens and promoting healthy lifestyles.

We hope you will consider our application for funding for this worthwhile project!

Sincerely,

Ashley Schaefer
